CHARGE TO JURYTHAT WILL INVESTIGATE TRUST
VIOLATIONS OF THE PACKERS

FOLLOW THE LAW ONLY

Tells Them Not to Pay Any Attention
To Talk Regarding
Business Matters.Chicago, Ill., July 14.—A special
federal grand jury has been empaneled
today to hear evidence as regards to the
alleged violations of the anti-trust
law by the National Packing Company
and the subsidiary companies.Judge Landis cautioned the jury
to allow their actions to be wholly
free from any influence of the then
heard argument that the law enforcement
agents will untangle business and that
no legitimate enterprise needs government
regulation in the commission
of crime."You will treat the statute to which
I have referred as being just as much
in force as are the laws against stealing
letters and counterfeiting coins," he said.United States Attorney General
Wickham, who recently visited Chicago
to confer with District Attorney
Edwin W. Sims, plans to center all
the energies of the department of justice
on the investigation of the alleged
beef trust, which was launched anew
today with the convening of the
special federal grand jury which was
called by Judge Landis after he had
quashed the previous indictment
against the packers on the ground of
its faulty construction.Indictment of the packers as individuals

PLANNED AT MADISONFriends Of Davidson Still Hope To
Bring Him Into the Field As
A Candidate.Madison, Wis., July 14.—Friends of
Gov. Davidson and some other republicans
are now working on a plan to
bring the governor into the field as a
candidate for re-election in association
with the candidacy of Mayor A.
J. Horlick for lieutenant governor.It is said that this movement has
been the result of a belief that Gov.
Davidson is still the strongest man
whom the conservative republicans
can place in the field for governor
and that his candidacy would be particularly attractive linked with that of
a man like Horlick, whom they declare
has shown himself to be possessed of
unusual popularity. As yet his
strength as a campaigner has been
proved only by his successive re-elections
as mayor of Racine.Early in the spring he was accorded
with being an aspirant for gubernatorial
honors, but the announcement
of his candidacy of his fellow townsman,
Capt. William Mitchell Lewis, for
the governorship caused Horlick to
withdraw his ambitions in that
direction. He has been at the convention
of the Wisconsin League of Municipalities
at Fond du Lac this week, and was scheduled to go to
Camp Douglas Wednesday night and
meet Gov. Davidson there today for,
presumably, a political conference.This Davidson-Horlick association
has been a subject of a good deal of
speculation around the statehouses for
the past few days, and also has been discussed
in Milwaukee. Much of the talk
has taken the form of a direct inquiry
as to how a Davidson-Horlick
candidacy would be received, particularly
by conservative republicans.And it is declared that friends of
Senator Fairchild, who claim to be influential
with him politically, have agreed that they would advise Senator
Fairchild, for the sake of harmony
and the assurance of success, to withdraw
his candidacy and give a clear
field for Gov. Davidson. The matter
is expected to come to a head within
the next few days.MAYOR OF RACINE

FARMER SERIOUSLY INJURED YESTERDAY
Fritz Byer, Residing Near Evansville, Badly In a Runaway Yesterday.
(Special to this Gazette.)
Evansville, Wis., July 14.—Fritz Byer, aged 40, a farmer residing on the Frank Annis farm about five miles south west of this city, was badly injured yesterday noon when a spirited team of horses which he was driving ran away. Byer was standing on a hay rack and was thrown with terrible force against a tree in the farm yard out of which he was driving. His arm was broken, one shoulder a hip dislocated and he sustained other severe bruises. While his injuries are serious, attending physicians think they will not result fatally but Byer will be laid up for at least three months.

EXPECT INCREASE SOON IN TRAFFIC
Coal Shipments May Be Started Tomorrow—Company Overhauling Motive Power.

Although freight traffic has been extremely light for some time past, the low water mark being touched yesterday when only the regular trains and not a single extra were reported out during twelve hours, it is reported that coal shipments from the north would be started tomorrow and that this would mark the gradual resumption of traffic following the annual summer check season. Several crews have been double-headed north in anticipation of the coal shipments which will be sent south via Belvidere for the western divisions. From the activity being shown throughout the entire system in repairing the road, the motive power, it is evident that the company does not intend to be caught without engines during the expected freight rush, this fall as was the case last year. With all the class 1, 1-1 and 2-1 ready for service a better showing will undoubtedly be made this year than last season, when it was found impossible to handle the traffic and yards were blocked everywhere. Now engines are being re-cycled at Chicago daily. One of them, part of the second consist of Class "12" passenger locomotives, was sent up on an extra yesterday in charge of Engineer C. S. Smith, and will be used on freight until ready for passenger service.

A change has been made in the schedule of the Burlington turn around, 552 and 598, and that train now runs through to Chicago instead of making the turn around in one day. This move cuts down the mileage for the regular crew and makes it necessary to employ two crews on the turn.

Fireman Pat Davey has received the Harvard work train with Engineer Shumway by bulletin, and E. Withers has taken his place on the 6:00 a. m. switch-engine. The former was given a set of knitting needles as a farewell present on his departure.

Engineer Garbutt and Conductor Conley are laying off 319 and 322.

Fireman Hackshaw has taken 582 and 589 with Engineer Dudley in place of Fireman Wilkins.

Fireman Rothlow has taken Grant's place on the night switch-engine with Engineer Har.

INTERSTATE COMMERCE COMMISSION'S RULING
In Future Seventy-five Per Cent of Cars in Train Must Have Air Brakes.

According to a ruling by the Interstate Commerce Commission, after September 1, eighty-five per cent of all the cars in a train must be equipped and controlled by air brakes. At the present time, only seventy-five per cent is required. No great hardship will be entailed on either of the two roads running into this city as all trains are equipped with the required safety appliances.

Fireman Micka is relieving Engineer Konaugh on the dog run with Engineer Allen.

Engineer James has returned to work on the day switch-engine after a two weeks' vacation.

Engineer Smith and Fireman Art Dooley double-headed Engineer Wilkins and Fireman Shobert out on 165 last night with engine 658.

King a Good Business Man.

The late King Edward was an excellent man of business and with the assistance of Mr. Ernest Cassel kept a sharp eye on his investments. His private affairs are stated to have been left in perfect order. It is expected that the queen mother will have the enjoyment of a large income besides her dowry of \$350,000 a year from the state.

Judicious investments are said to have increased King Edward's private fortune and not so long ago an insurance policy on his life for a large amount was successfully carried through, so in these circumstances there will probably be no difficulty in the queen mother keeping up Marlborough house and Sandringham, even though the latter has grown and increased until it has become one of the most expensive country seats in the kingdom.

Died in the Desert.

The sand of the Nevada desert has given up another of its untold dead. A man named Andrews has been found a skeleton on the desert 12 miles from a point where a man some time ago found a rifle, pack saddles and other paraphernalia identified as belonging to Edward Clifford, who disappeared last summer. Within a short distance of where the skeleton was found Andrews came upon the clothing of the missing man. In the pockets were \$210 in coin and a \$20 bill, besides letters positively identifying the body as that of the missing Clifford.

Kitchener Shown as Man of Tact.

An act of thoughtfulness and courage, performed by Lord Kitchener when in New Zealand, illustrates a side of his character which is perhaps too often unrealized. With the excessive generosity of his race, the chief of the Arawa tribe of Maoris offered the field marshal a much-cherished sword, given to the chief's ancestors by Captain Cook. Unlike some visitors, who absolutely despoil the Maoris by accepting all the valuable heirlooms which the warm-hearted natives press on them, Lord Kitchener, while expressing warm appreciation of the gift, courteously declined to retain it.

FOR THE BEST MAN; NO FAVORITISM

ROOSEVELT STATES POSITION IN REGARD TO NEW YORK GOVERNORSHIP.

SPEAKS AFTER HUGHES' VISIT

Colonel Gives Out Interview, But Is Evasive When Interrogated About Some Matters in Which Public Is Greatly Interested.

Oyster Bay, N. Y., July 14.—Theodore Roosevelt said with emphasis that he has taken no stand as yet in favor of either the insurgents or the regulars in the Republican party; and he desires to correct any impression that he is showing favoritism.

Colonel Roosevelt authorized the statement that he is "sounding out" the sentiment of party leaders throughout the country and that whatever he has done must not be construed as an expression of his feeling toward the administration.

No Break With Taft.

As to a break between himself and President Taft, the ex-president insisted that no word he has uttered could be interpreted in that sense. He is conforming with insurgents, regulars and Democrats, said Colonel Roosevelt, all at their own suggestion, and he is anxious to hear what the independents have to say. In a word, the ex-president is "feeling his way" through the tangled political chaos, with the idea of trying to clear the clouds.

Mr. Roosevelt would not go so far as to admit that he proposes to take the helm of the Republican ship of state in a heroic endeavor to direct its course in the coming national and state campaigns. He did say, however, that he is eager to see his party win throughout the country and that he will do everything in his power to accomplish the victory.

Won't Suggest Possible Nominees. Concerning the gubernatorial situation in New York state, Colonel Roosevelt declared that he wants to see the "strongest, most adaptable man" nominated, but he adroitly dodged all efforts to draw from him any suggestion as to the possible nominees.

"My position," said Mr. Roosevelt, "in regard to the governorship this fall is this: I want to find the best man for the office—the man who is most acceptable to the rank and file of the Republican party, and the independent voters. I intend to do everything in my power to see that such a man is elected."

Roosevelt to Be Active.

Colonel Roosevelt's indication of his position, made less than an hour after the departure for New York of Governor Hughes, is taken as a significant sidelight on the conference between the governor and the colonel. While both men refused to disclose the precise subject matter of their conference it is believed from Mr. Roosevelt's attitude that it was decided that the latter would take an active personal part in regard to the nomination of a candidate for governor.

PENNSY TRAINMEN VOTE STRIKE

Employees East of Pittsburgh and Erie Favor Walkout if Needed.

Philadelphia, July 14.—Representatives of the conductors, trainmen and yardmen on the Pennsylvania railroad line east of Pittsburgh, Erie and Buffalo notified General Manager W. Heyward Myers that a large majority of the men had voted "yes" on the ballot which empowered the men's general committee to call a strike unless they reached an agreement with the company on the matter of wages and working conditions.

Mr. Myers informed the delegation that the Pennsylvania railroad is willing to meet the conditions which prevail on other roads, provided that the company is put to no additional expense.

At the request of the union leaders another conference will be held with Mr. Myers.

ASK CHARLTON'S EXTRADITION.

Italy Makes Request—No Surrender if Insane, Is Official's Decision.

Washington, July 14.—Formal request for the extradition of Porter Charlton, charged with killing his wife at Lake Como, Italy, has been forwarded by special messenger from Rome to London, whence it will be sent on to Washington by the first mail.

A preliminary investigation of the law in the case has been made by the state department authorities. It was decided that a person in an insane asylum at the time the request for extradition comes cannot be surrendered.

MISS ELKINS IS TO WED MITT?

Rumor Also Says the Duke of the Abruzzi Is to Be a Guest.

Washington, July 14.—The interesting rumor was in circulation at the Chevy Chase club that Miss Katherine Elkins will marry the duke of William P. Mitt, son of the late Robert R. Mitt, in the early days of the next social season. The story also was that the duke of Abruzzi would be a guest at the wedding.

The rumor, of course, could not be verified, but it is being whispered by Mr. Mitt's friends in the club.

Washington, July 14.—"Neptune" is the name chosen by the navy department for the new collier being built for the government at Steelton, Md.

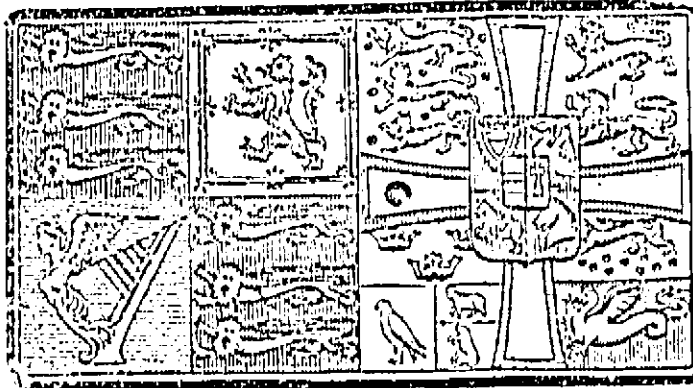

WASHINGTON SENATORIAL FIGHT A BITTER ONE SINCE COLONEL ROOSEVELT WAS REPORTED TO HAVE INDORSED CONGRESSMAN POINDEXTER.

At left, Congressman Miles Poindexter.

At right, Senator Piles of Washington.

Seattle, Wash.—Since the implied endorsement given Congressman Poindexter by Colonel Roosevelt for the seat now held by Senator Piles in the United States senate, the fight has become more heated than ever. Senator Piles is out after another term, supporting Secretary Hallinger in the Taft administration. Congressman Poindexter is one of the most enthusiastic insurgents and thoroughly anti-Hallinger. Both men have been well known in state politics for many years.

NEW FLAG HOISTED AT BUCKINGHAM PALACE.

Queen Alexandria's flag hoisted at Buckingham palace for the first time the day before her grandson was made prince of Wales, on his sixteenth birthday. The new flag consists of the British standard on the left and the Danish on the right. It is 24 feet long and 12 feet deep and will hereafter be known as Queen Alexandria's flag.

Inexpensive Disinfectant.

An inexpensive disinfectant for a sick room can be made as follows: Put some ground coffee in a saucepan and in the middle place a small piece of camphor gum. Light the gum with a match. As the gum melts the coffee to burn with it the smell is most refreshing and healthful.

Billie's Good Quality.

A fine example of childish reasoning was offered by the little school girl who was overheard loudly approving of a boyish escapade. "I do love Billie," she sighed, sweetly, "he's so dastardly. Why? There's nothing under heaven that he doesn't do!"

The New Capoc Cushions

We are agents for the new cushions made by the Willard-Harlowe Mfg. Co. of Janesville. They are covered with imitation leather and filled with an imported material called Capoc. Each has a handle to carry them by. An interesting thing about these Capoc pillows is that they will float on water and where used for boat cushions they also serve as life preservers, as one will hold up a person. Anybody that owns a launch or boat cannot afford to be without one, for in case of accident they can be grabbed quickly—no harness about them. The cushions when sat upon will naturally become more or less compressed, but when not in use they spring back into place gradually. Being made by a home manufacturer we predict a great future for the Capoc pillow. They come in assorted colors, two sizes, \$1.00, \$1.25.

1st. Quality Texas Elberta Peaches

Second Carload Distributed Tomorrow Morning

There is no peach like the Texas Elberta for canning purposes and it would be foolish to eat some of these now as there is no telling whether or not there will be any Michigan peach crop on account of the unfavorable weather conditions last spring.

This second carload is of a quality even better than the first and are in just right condition for canning. We advise the canning of peaches now if you are going to can at all.

You can get them in baskets, half bushels or bushels from your grocer.

We wholesale only.

Age of Niagara Falls.

To the question: "How old are the Niagara falls?" geologists have returned replies varying by tens of thousands of years. At first it was estimated that the Niagara river came into existence through changes in the level of the land around the great lakes about 55,000 years ago. Later this was reduced to only 12,000 years. Lately increased the estimate again to 3,500 years, and still later other scientists lowered it to about 9,000 years.

The Situation.

BOLD HIGHWAYMEN VISITED CABOOSE

And With a Rusty 22 Calibre Revolver Made Conductor Bait and Two Brakemen Disappear.

While Conductor F. Hart and two brakemen were sitting in the caboose of their work train in the St. Paul yards, near the tracks, shortly before twelve o'clock last evening, the door was suddenly flung open by two masked men who "covered" them with a rusty 22 calibre revolver and gruffly demanded that they held up their hands and submit to a search for watches and other valuables. The conductors, whose cries and relentless violence were hidden by handkerchiefs, appeared to mean what they said and the trio meekly did as bidden. Upon completing the search, the highwaymen took their departure, showing harsh and lurid epithets on their victims for not having at least a dollar or two about their persons. As soon as darkness had closed in upon the disappearing rascals and their footfalls were no longer to be heard, the train crew communicated with the police station. A search was instituted but no suspicious characters were located in the neighborhood. Meanwhile Conductor Kaylor, who used to work with Hart and a trainman by the name of Cole were safely housed in their own caboose and chugging their sides in sleep over the gigantic success of a practical joke which wiped out the scores against Hart for the numerous pranks he had played on Kaylor in times past. Watches were returned to owners at five o'clock this morning. The victims described one of the robbers as unusually tall and the other as short. "Both were slouch hats," according to the accounts, "and were undoubtedly professionals."

DECLARE RAINFALL WAS GROSSLY EXAGGERATED

Several Observers Take Exception To Figures Published Yesterday—Fifth Of An Inch For The Month Says E. T. Brown.

Several observers have taken exception to the rain precipitation figures published in these columns yesterday. E. T. Brown, 409 East Milwaukee St., says that there has been no such magnifying of a thin sheet of rain-water since the days of Noah. Observations which he has taken show that not more than one tenth of an inch fell on Monday and that the total for the month does not exceed two tenths.

THE TELEPHONE IDEA

"One Policy, One System, Univer-
sal Service" is the Bell Motto,
and the Motto of the Wis-
consin Telephone
Company.

The public today demands time
saving assistance. The busy man
works under high pressure during
the busy hours of the business day.
He utilizes every device for econo-
mizing his time and increasing his
efficiency.

The Bell telephone is his greatest
helper. Bell service reaches to every
part of the continent. Whether he
needs to talk to his home, a few
blocks away, or to his business as-
sociate, 1,000 miles away, the Bell
System furnishes him the means of
reaching both, with equal facility.

The busy man finds the Bell tele-
phone on the fast limited train. He
finds the Bell telephone in his room
at the hotel. Again, he has within
reach of his voice his home or his
office, no matter how far distant.

The uses of the telephone are con-
stantly expanding. Many railways
are now dispatching their trains by
telephone instead of by telegraph.
Its use is becoming universal, and
the more nearly that measure of use
is approached, the more apparent is
its superiority and the greater the
necessity for one comprehensive, na-
tion-wide system.

This is the Bell Idea—"One policy,
one system, universal service."
The Wisconsin Telephone Com-
pany is a part of the Bell System—
Telephone Talk 13.

Woman in Methodist Conference.
Miss Job of Queenstown, Tasmania,
is said to be the only woman who has
ever sat within the bar at a Wesleyan
Methodist conference. When she first
took her seat one minister protested
that the conference was composed only
of ministers and laymen and that they
had no power to admit the best lady
in the land. All others, including the
president of the conference, took the
position that women were included as
laymen and Miss Job retained her seat
within the bar.

ENTIRE VILLAGE
WAS THREATENED

CLINTON BUSINESS SECTION HAS
SERIOUS FIRE LOSS LAST
EVENING.

STOPPED BY A FIRE WALL

Sixteen inch Brick Wall of Post Office
All That Saved the Remainder of
the Stores.

(SPECIAL TO THE GAZETTE.)

Clinton, July 14.—Just for the six-
teenth brick wall that stood on the
south side of the Post Office structure
being strong enough to withstand the
heat of the flames which swept all the
frame buildings south of it, the busi-
ness section of Clinton would today
be in ruins. As it is, the six frame
structures to the south are this morn-
ing a mass of ruins, a total loss and
the financial loss to buildings and con-
tents are estimated at nearly ten
thousand and perhaps larger, with but
a partial insurance.

The fire started in the butcher shop
of Hurd and Foley, its origin being
unknown. The proprietors had stepped
outside a few minutes after six and
returned to find the whole interior of
the building in flames. They spread
to the general merchandise store of
W. R. Hartshorn, next door, to the
south and rapidly cleaned out the en-
tire structure. They had also com-
municated to the frame stores to the
north and the Redwood Restaurant,
L. F. Dean's photographic gallery, W. C.
Gruber's barber shop and the to-
bacco and candy store of D. T. Doney
also went up in flames.

The strong south wind fanned the
blaze into a conflagration and made it
impossible to save the burning build-
ings and the fire departments and citi-
zens devoted their energies to pre-
venting the spread of flames to the
adjacent structures to the north. So
intense was the heat that it was im-
possible to enter the buildings to
save anything and with the exception
of a few articles hastily snatched up all
was destroyed.

When the fire reached the large
sixteen-inch brick wall of the Post Office
building it was stopped for the en-
tire of the next buildings being kept
soaked with water prevented the fire
from going any further. It then
burned itself out and the danger to
the village was practically ended.

Watchers were however left to pre-
vent any spread of the fire and about
two the roof of 12. The furniture
store was discovered to be on fire and
was quickly extinguished. The burned
buildings belonged to Shirley Innman
of the town of Bradford and to L. J.
Heath of Milwaukee. They were all
wooden and made excellent food for
the fire.

Mr. Hartshorn's loss is the most
severe. He has been in business on
the same site for forty-seven years.
His store and entire contents were
entirely destroyed nothing being
saved. Just how the fire started is
not known and is being investigated.
It was one of the worst blazes that
has been fought in this village in
years.

BARN IN RICHMOND BURNED
TO THE GROUND ON MONDAY

Building on Duane Peterson's Farm
Struck by Lightning During
the Storm.

(SPECIAL TO THE GAZETTE.)

Richmond, July 13.—Lightning
struck Duane Peterson's barn Monday
evening, completely destroying it.
Fortunately the building contained no
hay nor live stock, and was insured
for \$400.

Mr. and Mrs. Henry Dunbar, of Dek-
avan, passed through here Sunday
enroute for Milton, where they spent
the day with relatives.

C. C. Stoller has finished work on
Mr. Rorkland's new barn, and has
commenced work on a new residence
for W. H. Callahan.

STRIKE AT THE ALDRICH HOME.

Senator's Employees Demand \$1.75 a
Day; Tariff Gels Gibe.

Warwick Neck, N. J., July 14.—A
strike of laborers on the country es-
tate of Senator Aldrich, where a great
stone residence is being erected, is
on. The strikers demand \$1.75 a day,
an increase of 15 cents. A notice con-
spicuously posted about the site of the
house states that 16 cents an hour
will be paid for ten hours a day. The
strikers forwarded an appeal to Sena-
tor Aldrich for \$1.75 a day, declaring
that the high cost of living made it
impossible for them to get along on
less wages. To this petition some one
added:

"Owing to increase in the price of
commodities under the Payne-Aldrich
tariff bill."

RATE ADVANCE IS SUSPENDED.

Freight Tariffs Will Be Looked Into
by Commerce Commission.

Washington, July 14.—Suspension of
recent general advances in freight
rates has been decided upon by the in-
terstate commerce commission. These
tariffs were to become effective Aug.
1. By a vote of the commission
the rates will be suspended until a
formal inquiry into their reasonableness
can be made.

Wreck Dead Now Total 23.

Hamilton, O., July 14.—Henry Os-
wald, injured in the big four wreck
at Middletown July 4, died of his in-
juries in the Mercy Hospital. This
brings the death list up to 23.

Eight Workmen Hurt In Fall.

Memphis, Tenn., July 14.—By the
collapse of a scaffold used in the con-
struction of the Holloway high school
here eight workmen were injured. One
of the men may die.

MARKED DECREASE
IN TOTAL ARRESTS

For June, As Compared With May,
Might Warrant Forty-seven
Varieties of Dr.'tful Little
Conclusions.

Chief Appleby's report to the
common council showed that 74 ar-
rests were made during the month of
June, 67 of them for drunkenness. The
May total was 102, of which number
85 were for drunkenness. The de-
crease of 27 1/2 per cent in the totals
and 21 per cent in the arrests made
for drunkenness during the month of
June, as compared with the preceding
month, might suggest at first blush
that the world is growing better, or
that improved climate makes for bet-
ter behavior; or that there was a
marked improvement in the ability of
the citizens to resist the fluid cup
that means total depravity; or that
the "squirrel" was more diluted, per-
haps, and less disastrous. Rockford's
decision to keep its drunkards at
home and re-entry into the "wet"
column may have been a contributing
factor, though, in fairness to the For-
est City, it must be said that no ex-
traordinarily large percentage of its
thirty ones ever wandered north of
the Hellet oasis.

HARTJE'S REACH AN AGREEMENT

Famous Divorce Suit Is Settled by a
Mutual Understanding.

Pittsburg, Pa., July 14.—After years
of court litigation, the Hartje divorce
case is now a matter of history.
The famous suit was settled by
mutual agreement between Mary
Kenny Scott Hartje and Augustus
Hartje, the millionaire paper manufac-
turer, when the husband scored a tri-
umph by his wife withdrawing the
charges of infidelity and agreed to the
father having charge of the son and
contingently, that she shall have con-
trol of the daughter.

Mrs. Hartje, then, by agreement,
went into court and filed a supple-
mental petition for divorce on the
ground of desertion. The court, in the
absence of opposition, will announce
his decision soon.

FOOD FACTS

What an M. D. Learned.

A prominent physician down in
Georgia, went through a food ex-
perience which he makes public:
"It was my own experience that first
led me to advocate Grape-Nuts food
and I also know from having pre-
scribed it to convalescents and other
weak patients that the food is a won-
derful restorative and restorer of nerve
and brain tissue, as well as muscle. It
improves the digestion and sleep. Pa-
tients always gain just as I did in
strength and weight very rapidly.
It was in such a case that I had
to give up my work entirely and go to
the mountains of this state, but two
months there did not improve me. In
fact I was not quite as well as when I
left home. My food did not sustain me
and it became plain that I must
change, then I began to use Grape-
Nuts and in two weeks I could walk a
mile without the least fatigue and in
three weeks I was back to my normal
strength, taking up hard work again.
Since that time I have felt as well and
strong as I ever did in my life.

"As a physician who seeks to help
all sufferers I consider it a duty to
make these facts public."

"I tried to days on Grape-Nuts when
the regular food does not seem to sus-
tain the body will work miracles.
There is a reason."

Read the little book, "The Road to
Wellness," in pieces.

Ever read the above letter? A new
one appears from time to time. They
are genuine, true, and full of human
interest.

FUNERAL OF HARRY
SHEA ON WEDNESDAY

Remains of Young Man Drowned in
Lake Michigan Were Interred in
Monroe Yesterday.

Monroe, Wis., July 14.—The remains
of Harry Shea, who lost his life by
drowning in Lake Michigan ten days
ago, arrived here this morning on the
Illinois Central and the funeral was
held from St. Victor's church at 9
o'clock.

The body was washed ashore at
Bridgman, Mich., on Sunday and was
identified by Thomas Knight, of Chi-
cago, who was notified of the finding
of the body and left at once for
Bridgman to identify the body. A
long search has been made ever since
the evening of the Fourth when his
clothes were found in a locker at the
beach in Michigan City, whether he
had gone with two companions for a
swim. The young man was employed
at the Northwestern depot in Chicago
previous to his death.

New Block Planned.
A new block on South Jackson
street may be one of the improve-
ments much needed on that street.
John Gettings owns the property
which is on the market, the price
having been fixed at \$150 a front foot
for any part of the 68 feet. There is
growing need of store buildings to
rent and also a great demand for
rooms. There have been no empty
store buildings in the city for years
past and should a new block be erect-
ed there is no doubt but what the
rooms would be quickly rented. The
street on which the block may be
erected, is one of the best business
streets outside of the square in the
city.

Mav Merge Phone Lines.

The officers and directors of the
United Telephone and Monroe Tele-
phone companies are talking of merg-
ing the two systems into one, the man-
agement of the above companies feeling
that it is no longer advisable to
continue them as separate enterprises.
The United Telephone company
controls numerous farmers' lines and
some of the local lines of the county,
all of which have connection with the
switchboard of the Monroe company.
The latter has an investment of \$38,
000 and the United has the best pay-
ing proposition.

P. J. Weirich, of this city, at present
General Superintendent of both the
United Telephone company and the
Monroe Telephone company, was
elected secretary of the Wisconsin
Telephone association which was or-
ganized at a meeting held in the as-
sembly chamber at the capitol in Mad-
ison yesterday.

FORMER EVANSVILLE
WOMAN PASSED AWAY

Mrs. Eunice Winston Died Monday in
Mayville, New York—Funeral
Today in Cut-off City.

Evansville, July 13.—It was with
feelings of deep sadness that
friends here learned of the death of
Mrs. Eunice Winston which occurred
Monday morning at Mayville, New
York. She was eighty-three years of
age and her demise was due to heart
trouble. She was a sister of Byron
Campbell of this city and the re-
mains arrived here this noon and
were taken to his home on Main
street. Mrs. Winston was well and
favorably known to many here, as
her parents were among the very
earliest settlers of the town of Port-
er, having come to Wisconsin in 1838.
She was born in St. Albans, Vermont,
Dec. 11, 1827, and in 1846 she was
married to William Winston who was
a brother of John Winston of this city,
and at one time was proprietor of the
Central hotel. In 1871 the family
moved to Minnesota. Her husband
preceded her in death twenty-six years
ago and since then she has made her
home with her children. She has two
sons, Byron and William living at
Poultice Grove, California, and when
she was not with them she lived with
her daughter, Mrs. Mary Lou, in
Jacksonville, Florida. This had been
her home for the past two years and
she with her daughter, had recently
gone to Mayville, N. Y., where they
had planned to remain through the
winter months. Her son, William,
was at Atlantic City, N. J., on busi-
ness, and he with his wife and Mrs.
Long and her son accompanied the
remains to this city. Beside the re-
latives already mentioned she leaves a
brother, Tyler Campbell, of Cheney,
Kansas. The funeral will be held to-
morrow morning at ten o'clock at Mr.
Campbell's home on Main street, Rev.
D. C. Grubb officiating. The remains
will be laid at rest beside those of
her husband in Maple Hill cemetery.

Mass Meeting.

There will be a mass meeting at
the city hall next Monday evening,
July 18, the object of the meeting
being to discuss and obtain informa-
tion relative to the sewerage propo-
sition. Dr. Harper, secretary of the
state board of health, and E. D. Par-
sons of Watertown, the man who pre-
pared the sewerage plans, will speak.

He smiled. His white teeth gleamed, his eyes laughed, and with a heart bursting with grief Nathaniel looked away from him. He had seen courage, but never like this, and deep down in his soul he prayed—prayed that death might come to him first, so that he might not have to look upon the agonies of this other, whose end would be ghastly in its fearless resignation. His own suffering had become excruciating. Sharp pains darted like red-hot needles through his limbs, his back tortured him, and his head ached as though a knife had cloven the base of his skull. Still—he could breathe. By pressing his head against the post it was not difficult for him to fill his lungs with air. But the strength of his limbs was leaving him. He no longer felt any sense of pain in his cramped feet. His knees were numb. He measured the paralysis of death creeping up his legs inch by inch, driving the sharp pains before it, until suddenly his weight tottered under him and he hung heavily upon the thing about his throat. For a full half minute he ceased to breathe, and a feeling of ineffable relief swept over him, for during those few seconds his body was at rest. He found that by a backward contortion he could bring himself erect again, and that for a few minutes after each respite it was not so difficult for him to stand.

After a third effort he turned again toward Nell. A groan of horror rose to his lips. His companion, his companion's face was full upon him, ghastly white; his eyes were wide and staring, like balls of shimmering glass in the starlight, and his throat was straining at the fatal rattle! Nathaniel heard no sound, saw no stir of life in the inanimate figure.

A moaning, wordless cry broke through the cloth that gagged him. At the sound of that cry, faint, terrifying, with all the horror that might fill a human soul in its articulate note, a shudder of life passed into Nell's body. Weakly he hung himself back, stood poised for an instant against the stake, then fell again upon the deadly throng. Twice—three times he made the effort, and failed. And to Nathaniel, staring wild-eyed and silent now, the spectacle was one that seemed to blast the very soul within him and send his blood in rushing torrents of fire to his sickened brain. Nell was dying! A fourth time he struggled back. A fifth—and he held his ground. Even in that passing instant something like a flash of his buoyant smile flickered in his face and there came to Nathaniel's ears like a throttled whisper—his name.

"Nathaniel!"

And no more.

The head fell forward again. And Nathaniel, turning his face away, saw something come up out of the shimmering sea, like a shadow before his blinding eyes, and as his own limbs went out from under him and he felt the strangling death at his throat there came from that shadow a cry that seemed to snap his very heart-strings—a piercing cry and (even in his half-consciousness he recognized it) a woman's cry! He flung himself back, and for a moment he saw Nell struggling, the last spark of life in him stirred by that same cry; and then across the white sand two figures flew madly toward them, and even as the hot film in his eyes grew thicker he knew that one of them was Marion and that the other was Winnie Croche.

His heart seemed to stop beating. He strove to pull himself together, but his head fell forward. Faintly, as on a battlefield, voices came to him, and when with a superhuman effort he straightened himself for an instant he saw that Nell was no longer at the stake but was stretched on the sand, and of the two figures beside him one suddenly sprang to her feet and ran to him. And then Marion's terror-flicked face was close to his own, and Marion's lips were mouthing his name, and Marion's hands were slashing at the things that bound him. When with a great sigh of joy he crumpled down upon the earth he knew that he was slipping off into oblivion with Marion's arms about his neck, and with her lips pressing to his the sweet elixir of her love.

Darkness enshrouded him but a few moments, when a dash of cool water brought him back to light. He felt himself lowered upon the sand and after a breath or two he twisted himself on his elbow and saw that Nell's white face was held on Winnie's breast and that Marion was running up from the shore with more water. For a space she knelt beside her brother, and then she hurried to him. Joy shone in her face. She fell upon her knees and drew his head in the hollow of her arm, crouching mad senseless words to him, and bathing his face with water, her eyes shining down upon him gloriously. Nathaniel reached up and touched her face, and she bowed her head until her hair smothered him in sweet gloom, and kissed him. He drew her lips to his own, and then she lowered him gently and stood up in the starlight, looking first at Nell and next down at him; and then she turned quickly back to the sea.

From down near the shore she called back some word, and with a shrill cry Winnie followed her. Nathaniel struggled to his elbow, to his knees—staggered to his feet. He saw the boat drifting out into the night, and Winnie standing alone at the water-edge, her sobbing cries of entreaty, of terror, following it unanswered. He tottered down toward her, gaining new strength at each step, but when he reached her the boat was no longer to be seen and Winnie's face was whiter than the sands under her feet.

"She is gone—gone—she moaned, stretching out her arms to him. "She is going—back to Strang!"

And then, from far out in the white glory of the night, there came back to him the voice of the girl he loved:

"Goodby—Goodby—"

CHAPTER XII.

Marion Freed From Bondage.

"Gone!" moaned Winnie again. "She has gone—back to—Strang!"

Nell was crawling to them like a wounded animal across the sand. She started toward him but Nathaniel stopped her.

"She is the king's—wife—"

His throat was swollen so that he could hardly speak.

"No. They are to be married to-night. Oh, I thought she was going to stay!" She tore herself away from him to go to Nell, who had fallen upon his face exhausted, a dozen yards away.

In the wet sand, where the incoming waves lapped his hands and feet, Nathaniel sank down, his eyes staring out into the shimmering distance where Marion had gone. His brain was in a daze, and he wondered if he had been stricken by some strange madness—if this all was but some passing phantasm that would soon leave him again to his misery and his despair. But the dash of the cold water against him cleared away his doubt. Marion had come to him. She had saved him from death. And now she was gone.

And she was not the king's wife! He staggered to his feet again and plunged into the lake until the water reached to his waist, calling her name, entreating her in weak, half-choked cries to come back to him. The water soaked through to his hot, numb body, restoring his reason and strength, and he buried his face in it and drank like one who had been near to dying of thirst. Then he returned to Nell. Winnie was holding his head in her arms.

He dropped upon his knees beside them and saw that life was returning full and strong in Nell's face.

"You will be able to walk, in a few

minutes," he said. "You and Winnie must leave here. We are on the mainland and if you follow the shore northward you will come to the settlements. I am going back for Marion."

Nell made an effort to follow him as he rose to his feet.

"Nathaniel—wait—"

Winnie held him back, frightened, tightening her arms about him. "You must go with Winnie," she urged Nathaniel, seizing the hand that Nell stretched up to him. "You must take her to the first settlement on the coast. I will come back to you with Marion."

He spoke confidently, as a man who sees his way open clearly before him, and yet as he turned, half running, to the low black shadow of the distant forest he knew that he was beginning a blind fight against fate. If he could find a hunter's cabin, a fisherman's shanty—a boat.

Barely had he disappeared when a voice called to him. It was Winnie. The girl ran up to him holding something in her hand. It was a pistol. "You may need it!" she exclaimed. "We brought two!"

Nathaniel reached out hesitatingly, but not to take the weapon. Gently, as though his touch was about to fall upon some fragile flower, he drew the girl to him, took her beautiful face between his two strong hands and gazed steadily and silently for a moment into her eyes.

"God bless you, little Winnie!" he whispered. "I hope that some day you will—forgive me."

The girl understood him. "If I have anything to forgive—you are forgiven."

The pistol dropped upon the sand, her hands stole to his shoulders. "I want you to take something to Marion for me," she whispered softly. "This!"

And she kissed him.

The Optimist's Corner

Daily Helps to Health and Happiness

By GEORGE F. BUTLER, A. M., M. D.

When a girl enters the world after her education is finished, she does not always find it what she expected. The schoolroom is one thing, the world another. She may have been popular with her teachers because she was a diligent scholar and carried off the honors of the school; but she finds that book knowledge does not make her popular or successful socially. Some of the most intelligent people we have known have been among the most disagreeable. A woman whose intellect is aggressive, who parades her knowledge before those of inferior intellect or education, is an object to be dreaded. Mere learning in a woman is never attractive. It is, on the contrary, offensive, unless coupled with feminine graces. School learning should sink into the character and deportment, and only exhibit itself as the perfume of a flower is exhibited—in a subtle, nameless, and unobtrusive manner. The time between the schoolroom and the altar should not be a mere harvest time of pleasure, but a sowing time for all the seeds of kindness and self-sacrifice for others, and of unselfishness and benevolence which alone can make her a successful wife and mother.

P. O. Address, Janesville, 215 Hayes Bldg., Rock Co., Wis.

It was Smithville.

A friend of the writer who had not been in Smithville since the new depot was installed drifted in on one of the midnight trains a week ago and on alighting and looking around seemed lost and said: "Why, this ain't Smithville; it can't be Smithville." He wandered over to the corner occupied by the new Byrne building and, still in doubt, kept repeating: "This can't be Smithville." Continuing on his way past the Masonic temple he fell over a cow at rest on the sidewalk and he murmured: "I believe this is Smithville." Further on in the stygian darkness he strayed from the walk and into a pool of water and he shouted: "This is Smithville; this must be Smithville!"—Smithville Times.

Island of Many Names.

The political rechristening of streets in Paris is outcome by the case of the island of Reunion, which changed its name four times in just over half a century. In 1793 it was Bourbon, as it had been for a century and a half; but the convention then changed it to Reunion. Under the empire it became Ile Bonaparte, at the restoration it reverted to Bourbon, and finally in 1848 it became Reunion once more. So the septuagenarian islanders of this last year could recall an unparalleled series of compulsory Vicar of Bray changes. They may have thought themselves lucky a few years later when the second empire refrained from Bonapartizing this island again.
